For the 2019 Bloom Season, Beekeepers can register through the following interfaces for Free: (Coding registration fees still apply)

- FieldWatch®
- CalAgPermits

BeeWhere tracks hive locations to help stakeholders address pollinator protection in the field. Although regulations have been in place for decades around beekeepers’ registration, BeeWhere helps streamline registration and provides information to foster communication between beekeepers and pesticide applicators during bloom.

Pesticide applicators can access information for notification of applications to registered beekeepers with hives within a mile of the permit where pesticides are being applied, as required by California regulatory guideline.

For 2019 registration and movement notification, BeeWhere partnered with FieldWatch® and CalAgPermits.
Bringing beekeepers and pesticide applicators together by tracking and safeguarding hive locations across California using simple mapping tools.

<td>Beekeepers can use this website to fulfill their obligation to register annually in their home county, notify other counties when they first move bees into those counties, and notify the County Agricultural Commissioner when they move bees to new locations within the county. All information provided by beekeepers through this site is carefully protected according to the provisions of California law.</td>
<td>Licensed Pest Control Advisors (PCAs) can use this website to find out if bee colonies will be present within one mile of the application site under consideration on or around the potential application date. PCAs will not receive information about specific beekeepers or bee colony locations, nor will they receive contact information for beekeepers with colonies in the one-mile buffer zone.</td>
<td>Pesticide applicators (either a Grower applying pesticides on their own crops or a contracted Pest Control Business operating on behalf of a Grower) can use the BeeWhere website to obtain contact information for beekeepers with colonies within a mile of an upcoming pesticide application. The pesticide applicator will not receive any information about the specific locations of the bee colonies.</td>

Haven't registered in California for 2020?

If you have not yet registered in California for 2020 and received a BeeWhere Statewide Beekeeper ID, you can complete your initial registration using the button provided below. Your initial registration should be completed in your home county (your main business or apiary location), or in the county where your bees will first be placed in California. You will be assigned a BeeWhere Beekeeper ID which will remain the same for all other county registrations and future years.

Payment of the required $10 fee to your home county must be made by mail or in person at the local county office. Once this payment has been processed, additional features will be made available to you on this website. A list of County Agricultural Commissioners offices is available here.

Already registered in California for 2020?

If you already registered for 2020, we just need to get you set up with a BeeWhere Statewide Beekeeper ID. You have three options to get this done:

- Option 1: do nothing - your local County Agricultural Commissioner staff will set up your BeeWhere Beekeeper ID for you and connect it to your beewhere.catalagpermits.com login. Once this process is complete you’ll receive an email and you can start using the features of BeeWhere to manage your registrations and notifications.

- Option 2: click on the Register button above and complete your BeeWhere registration. Your local County Agricultural Commissioner staff will be notified that you completed your BeeWhere registration online and they will update your payment status to enable the full set of BeeWhere features for you.

- Option 3: if your local Agricultural Commissioner staff have already sent you a communication with your BeeWhere Beekeeper ID but it is not yet connected to your beewhere.catalagpermits.com login, you can enter your BeeWhere Beekeeper ID using the button below and once it is verified you will have access to all the BeeWhere features.
Add Registration

Use this form to register as a new beekeeper.

Registration Information

- **Calendar Year:** 2020
- **Home County:** Choose one...
  - Your home county or the county in which you will first place your bees.

Beekeeper Information

- **Name:**
  - Your name or the name of your beekeeping business
- **Address Line 1:**
  - Mailing address line 1
- **Address Line 2:**
  - Mailing address line 2
- **City:**
  - Mailing address city
- **State:** Choose one...
  - Mailing address state
- **Zip Code:**
  - Mailing address zip code

Complete the form
Submit after completing the form
1. Enter the location of your hive(s)
(Note: The location of your hives is kept completely confidential and is only accessible to the San Mateo County Department of Agriculture)

2. Click to add your location to the map
Enter a name and the number of colonies at that location.
Your hives are officially registered when you can see a labelled pin on the map. Repeat the process if you have more than one apiary location.
Registrations expire at the end of the year (December 31).

Remember to renew your registration at the start of every new year!
